

Manufacturing Engineer – On Site

29 DEC 2023

Aerovel is seeking an experienced Manufacturing Engineer to join our team on-site in Bingen, WA developing and manufacturing the next generation of long-range robotic aircraft. Aerovel is led by the aeronautical veterans who invented and developed the Group 2 small tactical unmanned aerial system (STUAS), a backbone of US military and allied intelligence, surveillance, target acquisition and reconnaissance (ISTAR) missions worldwide. The Group 2 UAS systems have contributed significantly to the effectiveness of US and allied troops as well as their safety and security. Aerovel Flexrotor is the most advanced STUAS with vertical take-off and landing (VTOL). It is designed for the demanding reliability and specifications required by the US Department of Defense (DOD) while being affordable for commercial applications.

Aerovel offers competitive compensation and benefits including health insurance, and 401k.

JOB DESCRIPTION

- Lead and develop Aerovel manufacturing and production procedures and standards
- Engage with the other engineering teams regarding design for manufacturability
- Test new and existing production procedures
- Organize and manage manufacturing workflows
- Engage with material/logistics management team for best practices
- Engage in all phases of the engine development cycle
- Assist in designing tools and fixtures for efficient manufacturing
- Play an active role in product, cost and process improvements

QUALIFICATIONS

- Bachelor's degree and 8 or more years' relevant experience in manufacturing engineering or similar accredited degree program, or a Master's degree with 5 or more years experience.
- Experience with SolidWorks including surfacing, assemblies, and PDM
- Experience with production manufacturing techniques for aerospace; experience evaluating and troubleshooting manufacturing processes and machinery
- Knowledge of manufacturing processes, fabrication methods and tool design
- Experience generating production documentation based on designs personally overseen
- Candidate must possess strong organizational skills
- Highly motivated individual with strong communication, interpersonal, and problem solving skills
- Able to interact professionally with internal and external customers, subcontractors, and suppliers
